TO THE FILES

On 6 April 1954, Tuesday, SI and H experimentation and research was carried on in Building 13 with the following subjects present: [REDACTED] In addition to [REDACTED] attended in a consultant capacity.

The session opened with a slow induction for all hands and then a subsequent reinduction for [REDACTED] to enable her to reconstruct a strange dream she had had the previous week. This was successful, although in the awake state she could remember no details.

The major experiment of the evening was then conducted as follows: [REDACTED] was taken to Room 23 under full hypnosis and she was instructed by the writer that she would find a Secret document in or on [REDACTED] desk in his room. She was told she was to conceal this document next to her person and then return to Room 21 (operation's room), pour herself a drink of water which she would find on the bookcase and stretch out on the sofa, face down and go into a deep sleep. She was instructed she would not awaken under any circumstances. She was told she would only awaken if someone whispered to her a specific code word and would recall nothing except sleeping on the couch. [REDACTED] performed the entire test in exact detail as outlined above and had no subsequent memory whatsoever of any of this activity.

During the experiment, [REDACTED] was taken to the same room by [REDACTED] and she was told that a person, whom she had never seen, had taken a Secret document from the Agency. She was told that this person or the suspected person had been given a drug and was unconscious on the sofa in Room 21. She was told she was to enter the room and find the document which would probably be on the person on the sofa. She was given specific instructions that she must locate the document. She was told if she found the document to conceal it on her person and return to room 23, sit in the chair and go at once into a deep sleep. She was further told she would have no memory of anything except falling asleep. [REDACTED] complied in specific detail and immediately discovered the document in [REDACTED] sweater sleeve. [REDACTED] concealed the document on her person, returned to room 23 and at once went into a deep sleep. Subsequently she was brought back into the operations room and she and [REDACTED] were awakened. The experiment was carried off successfully, particularly by [REDACTED] who had entire amnesia
